Clarifications No. 1 for RFP No. 2023-0107/STOMOV: “Upgrading of Infrastructure and Support to the Installation of the Radionuclide Particulate Station at Buenos Aires, Argentina”.

<b>Item #</b>	<b>Question</b>	<b>Answer</b>
1	Can you provide details photos of the existing electrical board, view of the roof, view of the air sampler, view of the new room, corridor etc?	Please find available photos attached.
2	How high is the ARN building, from the ground to the roof where the AS and Aux will be installed? How many floors does it have?	Height app. 15-20 meters (3 floor building, the roof is the “4th floor”). The heavy equipment (Snow White air sampler, auxiliary generator) must be lifted outside by crane. It cannot be brought up by freight elevator.
3	Could you please confirm the electrical standard of ARN premises ? 3-phases 380VAC/50Hz and single-phase 220VAC/50Hz?	380VAC/50Hz (air sampler) / single-phase 220VAC/50Hz (station equipment)
4	Are these Items provided by PTS or Contractor? Computers, SOHDAS, New Rack system, New Barcode Printer, Snowwhite air sampler.	Yes, all the items mentioned here will be provided by the Commission.
5	Point of contact at ARN	Upon award of the contract, CTBTO will share the designated point of contact at ARN with the awarded Contractor only. Please be guided accordingly.
